

Example GemsTracker sites

Here are some screenshots of implemented GemsTracker websites:

The screenshots display various interfaces of the GemsTracker system:

- Erasmus MC Thema Dijkzigt: GemsTracker:** Shows a 'Planning overzicht' (Planning overview) with filters for selection criteria and a table of questionnaires across weeks (week 29 to week 34). It includes a 'Geselecteerde vragenlijsten' (Selected questionnaires) section.
- capri hartrevalidatie | monitor:** Displays an 'Email sjabloon' (Email template) configuration screen with a search bar and a list of templates for different Capri Monitor questionnaires.
- equipe zorgbedrijven Pulse TEST:** Shows a user login and organization selection screen for the 'equipe' system.
- Xpert Clinic:** Displays a user login and organization selection screen for the 'Xpert Clinic' system.
- Erasmus MC MinT:** Shows a 'Vragenlijsten' (Questionnaires) management screen with a list of questionnaires like 4DSQ, CEQ, Chronic Pain Acceptance Questionnaire, HADS, PCI, and Pijn Cognitie Lijst 2003.
- Erasmus MC MinT (Bewerk vragenlijst):** Shows a 'Bewerk vragenlijst' (Edit questionnaire) screen for the HADS questionnaire, including fields for name, description, status, and results.
