

Here some examples of track definitions and how they work:

The image shows a screenshot of the GemTracker application interface. The interface is organized into several sections:

- Top Section:** Contains a search bar, a list of filters (e.g., Gemstone, Location, Date), and a table of search results.
- Main Table:** A large table with multiple columns. The columns include: Gemstone, Location, Date, Weight, Color, Clarity, Cut, and Price. The table contains numerous rows of data, with some rows highlighted in grey.
- Bottom Section:** A summary or statistics section, possibly showing totals for different categories.

The table data is as follows:

Gemstone	Location	Date	Weight	Color	Clarity	Cut	Price
