

# Adding and removing users

## Adding users

- Go to Staff under Setup\*
- Go to new
- Select 'Radius storage' (using an external account) or 'Db storage' (local account)
- Enter username, first middle and last name and e-mailaddress
- Select the organisation in which this user is active
- Select the gender of the user
- Select the primary function ( )
- Check the box 'can login'
- Select the default language for this user
- Press '**Save**'

\* You can only see this tab if you have the right to access it

## Removing users

There are 2 ways a user can be 'removed'. The user can be blocked from the site, but remain in the database for later use, or the user is deleted from the database thus permanently removing it.

### Temporarily removing users

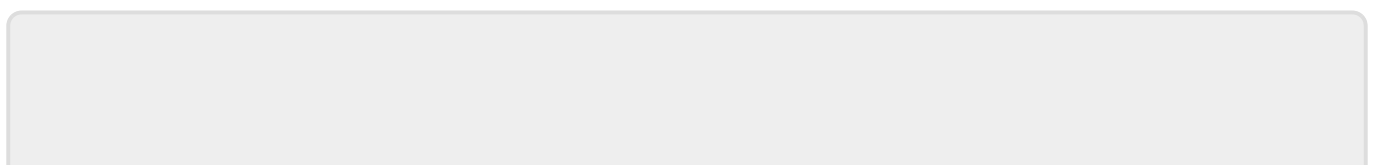

- Go to Staff under Setup\*
- Press '**Edit**' in the row of the user you want to block
- Remove the Check of 'can login'
- press '**Save**'

\* You can only see this tab if you have the right to access it

### Permanently removing users

- Go to Staff under Setup\*
- Select the user by clicking on it
- Press '**delete**'
- confirm the deletion by pressing YES

\* You can only see this tab if you have the right to access it
