

Working with GemsTracker

The most common tasks when working with Gemstracker:

Patient / respondent management

- [Adding and searching a patient or respondent](#)
- [Changing patient data](#)
- [Informed consent](#)
- [Sharing patient or respondent data](#)

Access management

- [Changing access rights](#)
- [Adding and removing users](#)
- [Maintenance mode](#)

Questionnaires

- [Creating a survey](#)
- [Loading questionnaires into GemsTracker](#)
- [What is a token](#)
- [Adding a survey](#)
- [Removing or modifying a survey](#)
- [Distributing surveys](#)
 - [Via a token](#)
 - [E-mail](#)
 - [how to make a template](#)
 - [Sending the survey on paper](#)
- [Importing answers](#)
- [Setting the informed consent using a survey](#)

Tracks

- [Creating a track](#)
- [Modifying a track](#)
- [Track events](#)
- [Appointments and tracks](#)
- [Dates & Tracks](#)
- [Track import & export](#)
- [Adding a track to a patient](#)

Overviews

- [Creating an overview](#)

Updating

- [Upgrade instructions](#)

this is just a start.....
