Via a token

Tokens can be used for distrubuting a questoinair by own means (a leter, a e-mail etc.). Gemstracker creates a token wich can be used as a key by anyone to answer the questionair. Both the token and the webadres of gemstracker will have to be send or given to each responder.

Getting the tokens

- Go to 'patiens' in the navigationbar on the left
- Open the patient by clicking on his/her row
- Go to the 'To do' tabb
- The token is the 8 characters long code at the end of the row

Using a token to open a questionair

- Go to 'Token' in the navigation bar on the left
- This is the URL (Web address) wich you should give to responders
- Enter the token
- Press '**OK**'
